

ALL AMERICANS ORDERED SLAIN

General Orozco, of Mexican Rebels, Said to Have Issued Edict.

HOPES FOR INTERVENTION

Believes This Country Can Be Forced to Cross the Border.

El Paso, Tex., July 29.—Ominous reports from the Mexican frontier declaring that rebels had determined to disarm Americans in the insurgent zone, and that guarantees of protection were to be withdrawn, were confirmed, in part, today by Louis Lach, a Mormon, who fled from Colonia Dublan with his family last night. Lach declared today:

"General Salazar told us at Casas Grandes and again at Pearson that intervention did not come from the Americans within the next few days the rebels will begin to kill every American they find and keep up the massacre until America was forced to cross the border. Salazar stated that it was the direct order of General Orozco."

Mexican Addresses.
The correspondent of the El Paso Herald wired a statement here today declaring that General Salazar, second in command of the Mexican rebel army, had made several addresses Sunday, in which he asserted that all Americans in the rebel zone were to be disarmed and all protection guaranteed for American citizens withdrawn.

Salazar is reported as saying that inasmuch as the American government had treated the rebels as bandits, they may as well act as such. The speeches followed Salazar's order to disarm the Mormon colonists at Colonia Dublan. He said that between 10,000 and 15,000 rounds of ammunition, according to A. W. Ivana, apostle of the Mormon Church.

Send to the Border.
They immediately agreed to send their women and children to El Paso, and 310 of them reached here during the night, and over 100 more came today.

The rebels left Colonia Dublan with the declaration that they would enforce the same order at Colonia Juárez against other Mormons. The colonists say they were told they could expect no further protection from the rebels, and that it was the intention to bring on American intervention if possible.

Fight on American Soil.
Washington, July 29.—A party of fifteen or twenty Mexican revolutionaries engaged in a fight on the American side of the border line Saturday night with a party of United States troops. The fight took place near Eagle Pass, Tex., according to War Department reports today.

The engagement took place between Eagle Pass and Del Rio. The rebels were defeated, leaving fourteen Swiss rifles, 500 cartridges, wire cutters, field glasses and clothing. No casualties were reported and the Mexicans escaped across the line.

General Salazar, one of General Orozco's lieutenants, is reported by Colonel Stever to have stated that the maltreatment of the Mormons in Mexico by the United States was the purpose to bring about intervention. The War Department reports also state that the acts against the Mormons are being carried on against Orozco's wishes.

The consul at Durango has telegraphed the State Department that the situation in the Laguna District has been relieved by the arrival at Torreón of General Quiroga. He added that the railroad has been running regularly from Torreón.

The consul at Juarez reports that there is no mail or telegraphic communication between there and Chihuahua. Orozco is said to be still in Juarez, and the work of destruction on the Mexican Central Railway continues, but it is reported that the situation has not changed materially during the last three days.

LAWLESSNESS IN CAROLINA LEAGUE

Charlotte, N. C., July 29.—The worst outbreak of lawlessness that has ever been experienced in this State since the game at Anderson this afternoon with Spartansburg, when Third Base Man Martin, who had been ejected, was snatched from enraged hands by police and escorted to safety, this attack being followed by a fight between First Baseman Cleveland and Honorable Arthur C. Coker, of Spartansburg, in which the latter was knocked unconscious. President Kern, of Charlotte, is tonight taking renewed steps to stop these acts of violence, and is imposing fines of \$25 and \$50.

AMBASSADOR REID'S GUESTS

Ancient and Honorable of Boston at Dorchester House.
London, July 29.—William Reid, United States ambassador, gave a lunch at Dorchester House today in honor of the officers of the Ancient and Honorable Artillery Company of Boston and the Free Artillery Company of London. Afterward he held a reception for the men of both corps, all of whom attended in full uniform. The Boston artillerists yesterday returned to London for a trip on the continent.

DON'T NEGLECT CATARRH

Catarrh is a most distressing complaint, known by its symptoms of stuffy feeling in the head and nose, roaring in the ears, mucus in the throat, difficult breathing, etc. When the blood becomes thoroughly polluted with catarrhal matter the inflammation extends to the bronchial tubes, causing hoarseness and often an aggravating cough, the stomach is affected, resulting in dyspepsia, loss of appetite, and gradually all the mucous membranes of the body become diseased. Catarrh is beyond the reach of local treatment. Only temporary relief can be had from the use of sprays, washes, etc. S. S. S. cures Catarrh by cleansing the blood of all impure catarrhal matter and at the same time building up the entire system. Then as pure, nourishing blood circulates through the body, the inflamed membranes heal, all discharges cease and Catarrh passes away. Don't neglect Catarrh; cure it with S. S. S. as thousands have done. Book on Catarrh and any medical advice free.

The Hardman's

Clear upper notes have the sweetness and purity of flute-tones; its middle register is like a mass of violins, while its untroubled bass has a "cello-like sonority."

BECKER ARRESTED ON MURDER CHARGE

(Continued From First Page.)

under arrest in connection with the case, and their attorneys, and the appearance of several other witnesses before the grand jury.

Becker was arrested at the Bathgate Avenue Police Station, in the Bronx, where he has been on duty, on a charge of extortion. At the time no inkling of the more serious charge to be placed against him was given. Meanwhile, the grand jury, which was then in session, had voted the murder indictment. The police lieutenant who had been suspended by Commissioner Walcott after his arrest, was hurried before Judge Mudge, and through his attorney, entered his plea of not guilty.

Sam Paul Discharged.
Events leading to Becker's arrest began to shape themselves late this afternoon following the preliminary hearing of several of the men under arrest before the coroner, Sam Paul, leader of an East Side organization, at whose outing, it is claimed, Rosen's killing was first discussed, was discharged. The others were held for a continued hearing. With their attorneys, Vallon, Webber and Rose were taken to the district attorney's office, ready to testify before the grand jury. Mr. Becker was at once dispatched for members of the grand jury, and the first night session of that body held within eighteen years was seen in progress.

Rosen, Webber and Vallon, it is stated, were the principal witnesses heard. Patrolman Brady and Patrolman William Pile, who were near the scene of the murder, also testified. The hearing, District Attorney Whitman, when asked if he expected the prisoners to tell the grand jury what they knew of his murder, replied:

"I hope so." He then went into conference with Judge Mudge to arrange for the night session of the court.

Shows Little Concern.
It was close to midnight when Becker was brought into court. He held his head erect and showed little or no concern. A clerk announced that Becker, you are charged with murder in the first degree. Do you demand a trial? Are you guilty or not guilty?"

John W. Hart, who appeared as Becker's counsel, asked for time to confer with his client, saying he had not seen Becker today and knew nothing of the details of the charge. He demanded the ten days in which to prepare his plea. To this Judge Mudge demurred. He suggested that a plea of not guilty be entered at once, saying that if at the end of one week the attorney wished to change the plea he was sure any court would grant permission. Becker was then remanded to the Tombs where he was accompanied by his attorney and remained in conference with his client for twenty minutes. When asked if he had any statement to make after leaving Becker, Mr. Hart replied:

"No. There is nothing to say at this time. My client pleaded not guilty. He does not know who his accusers are nor anything concerning the indictment. There will be nothing to say tonight."

Fear Electric Chair.
With the fear of the vengeance of the gangsters driven out of their minds by the greater fear of the electric chair, Becker, who had been a collector for police graft among the gambling resorts, "Bridge" Webber, gambler and enemy of Rosen, and Harry Vallon, gangster and hanger-on around gambling houses, are ready to confess. In the Criminal Court today Judge Mudge declared that they had been promised immunity if they would tell all, and that they had agreed to talk.

The announcement came after a conference between District Attorney Whitman, Attorney Sullivan, representing Rosen, Max D. Steuer, representing Webber, Harry Vallon and Dr. Otto H. Schulze, coroner's physician who performed the autopsy on Rosen's body.

Once the District Attorney left the conference room, "Is Rose going to confess?" he was asked. "I hope so," answered the prosecutor and disappeared into another room.

Rose is said to be weakening, and to have assisted in influencing the other two prisoners to tell all they know. The District Attorney is said to have in his possession checks given by Rosen to the police.

Body Is Found in Creek

MISS DORCAS I. SNODGRASS.

Catskill, N. Y., July 29.—The body of the young woman found yesterday afternoon in Dubois Creek, near this village, was identified this afternoon as that of Miss Dorcas I. Snodgrass, a nurse, who has been missing from the home of her sister in Mount Vernon since July 17. The identification was made by Frederick Schmidt, a young woman's nurse, an electrical contractor of Mount Vernon, and by Police Lieutenant M. I. Silverton, of the same place.

The body was so badly decomposed that identification, except from the jewelry and clothing, was difficult. Mr. Schmidt and Lieutenant Silverton immediately identified a diamond ring and portions of clothing taken from the remains as the property of Miss Snodgrass. Schmidt recognized the ring as the one he had given her upon engagement. Mr. Schmidt, after thorough inspection of the corpse, said: "I'm satisfied it is the body of Miss Snodgrass." Lieutenant Silverton was equally emphatic.

Many theories are advanced as to the events immediately preceding Miss Snodgrass's death and to the cause of death itself. Coroner Van Nudenburg has certified that "from the circumstances surrounding the case the cause of death was drowning."

Local officials, however, are inclined to believe Miss Snodgrass was the victim of foul play. Lieutenant Silverton expressed the opinion that Miss Snodgrass died as the result of an accident.

Sheriff Post, of Green county, in charge of the police investigation, tonight said:

"In my opinion, Miss Snodgrass's death was brought up Du Bois Creek in a launch or a boat and deposited at or near the place where it was found."

to police officials in payment of the latter's part in the gambling graft, for which Rose acted as go-between.

Employers Doubt-Crossed.
Rosenthal, when he walked into the entrance of the Metropolitan Hotel on the night of his murder, expected to receive \$25,000 instead of a bullet in his brain. This sum had been raised to induce him to leave New York, and double police officials as well as the gambler's ring are said to have contributed to the fund. The men who killed the gambler are believed to have double-crossed their employers, and instead of paying him the money entrusted to them, killed him, pocketing the fund.

In the gambling places and in the gangsters' retreats of the East Side, the report is current that "Whitey" Lewis is the man who fired the shots which killed Rosenthal. The Burns detectives hold the same theory, and Dr. Otto H. Schulze, coroner's physician, who made the autopsy, says he found two bullet wounds. He adds that probably one man fired both shots from a position close to Rosenthal. If other shots were fired they must have gone wild.

Mrs. "Bridge" Webber, wife of one of the men held for complicity in the killing, has retained Max D. Steuer, a noted criminal lawyer, to defend her husband. The retaining fee is reported to have been \$10,000. Webber's preparations for a strong fight has caused the detectives to redouble their work on his case in the belief that his connection with the murder was much closer than at present known.

New Eyewitnesses.
New eyewitnesses to the killing of Rosenthal were promised by District Attorney Whitman this afternoon. Mr. Whitman also sent to the grand jury room Max Markolis, who claims to have been press agent for Becker at one time. Markolis swore to having heard Mrs. Rosenthal say to Lieutenant Becker at the time of the raid on her husband's gambling place, "Why, Charley, what does this mean?" and to having heard Becker coaching his confederates for a strong fight. He said the case of this raid, which was intended to be a fake affair, to forestall a real raid planned by another of the "strong arm" squads.

The examination of the seven other men held for complicity in the murder, was continued by Coroner Feinberg. Controller Prendergast today made public a report in which it is shown that members of Lieutenant Becker's "strong arm squad" spent thousands of dollars in gambling and buying meals and drinks for the gamblers, yet never won a bet in any of the places where they played. An investigation will be made of these expenditures.

One of the new eyewitnesses produced by District Attorney Whitman is reported to have testified that policeman, some of them in uniform, cleared the street for a block on either side of the Hotel Metropole on the night of the murder of Rosenthal. To this the Burns detectives have added that the "gray murder car" in which the slayers were supposed to have escaped, was a "blind," and that they really got away in a large red car, going to Far Rockaway, where they

The Always Welcome Beverage

It is Blue Ribbon time when you are hot, thirsty or tired. A most healthful beverage that both refreshes and invigorates. No other beer can approach it in flavor or in all around deliciousness. Its popularity is due to the successful and honest efforts of its makers to produce a pure, wholesome and refreshing beverage.

Bottled only at the brewery in crystal clear bottles, showing at a glance that it is clean and pure. Phone or write for a case.

Pabst Brewing Co.

General Wankowski, of Los Angeles and other southern California members of the National Guard of California.

The general maneuvers agreed upon were that the regular army and the militia of California and Utah should engage in the attack and the defense of San Francisco August 12, that an invading army of 2,500 troops should march from Monterey Bay to attack San Francisco, and that a defending force of equal strength should march from the city to repel the invaders.

Each army will be equipped with scouts, artillery and cavalry. Southern California troops, about 800 in number, will form part of the invading force. With them will be Utah militiamen and troops from the regular army. The invaders will be composed of other California guardsmen and soldiers of the regular army.

PLAYERS RESPECT GRIEF

Suspend Ball Game During Interment Services.

Newark, N. J., July 29.—A game of baseball between the Caldwell team and the Worthington club of Harrison, which was witnessed by a large crowd, was strangely interrupted at 2 o'clock yesterday in the seventh inning, when the contest hung in the balance, a funeral entered the cemetery which adjoins the baseball park. The umpire raised his hand as the cortege neared the open grave and the game stopped. While the body was being lowered into the grave and during the prayer by the clergymen players and spectators remained silent.

As soon as the mourners turned away from the grave the umpire shouted "Play ball."

INSURANCE INCREASES

Condition Attributed in Part to the High Cost of Living.

Albany, N. Y., July 29.—The annual report of the State Insurance department, covering the business of life insurance for 1911, shows a considerable increase in the amount of losses and surrendered insurance, which the department declares "may no doubt be attributed to a great degree to the general increase in the cost of living, and to some unsatisfactory business conditions."

MILITIA OFFICERS ARRESTED.

Oregon National Guardsmen Held for Insurrection.

Gates, Ore., July 29.—Four officers of the Second Brigade Regiment, Oregon National Guard, are under arrest on a charge of refusal to obey orders as the result of the battalion's failure to obey immediately the command after yesterday's sham battle to return to Oakville, whence the regiment came. After the fighting, which had closed a week's maneuvers, the regiment, carrying heavy field equipment, proceeded to this place. On arrival here General Maus ordered their return to Oakville. An indignation meeting was held and the officers of the Second Battalion, it is said, declined to obey the order. Later, after abandoning their accoutrements, the Second Battalion returned to Oakville.

General Maus ordered the arrest of Major Ryland Scott, Captain Harry T. Williams, Captain Walter L. Toose, Jr., and First Lieutenant Richard Delf.

THINKS THEORIES PROVED.

Psychological Views Tested by Walk From New York to Chicago.

Chicago, July 29.—Mrs. Clara Mitchell, a North Side woman, has just completed a walk from New York to Chicago, which she made as a psychological experiment. Mrs. Mitchell has ideas different from certain pedestrians regarding the number of miles to be traveled each day, diet and other things.

Mrs. Mitchell said last night that three theories had been proved by the trip. First, that physical endurance does not depend on diet or muscle; second, that the power of intuition is a safeguard and a guide, and, third, that motor action ceases to be effort when it becomes a habit.

TENSE SITUATION IN TROUBLE ZONE

At Least 1,000 Miners Known to Be Armed With Rifles.

Charleston, W. Va., July 29.—Major Thomas Davis, of the Third Battalion, West Virginia National Guard, commanding four companies, ordered from the summer instruction camp at Mount Clinton, Pa., last night to do strike duty at Paint Creek. The special train was immediately sent to Mucklow, in the heart of the trouble zone. From this point there to be sent to various other places throughout the Paint Creek district. Conditions are reported quiet from all parts in the strike district tonight.

A tense situation exists. State militia and mine guards are on the alert. It is known that 1,000 miners are armed with rifles. A large number of miners were in this city today, and most of them, it is said, carried Strangers rifles. At least 100 men carrying rifles were seen in the streets here during the day. It was an unusual sight in the heart of the trouble zone. The attention of the militia and governor Gooch was tonight called to this condition. Adjutant General Elliott, in charge of the troops, said tonight that the miners are showing restlessness. Governor Gooch has not yet proclaimed martial law, but such action is expected.

UNEVEN TRACK DITCHED FLIER. REPORT DECLARES

New York Commission Urges Slower Train Schedules in Winter.

Albany, N. Y., July 29.—That the accident to the New York Central Twentieth Century Limited at Hyde Park on March 12 was due to an irregularity in speed, was one of the findings of the State Police Service Commission as the result of its investigation of the accident.

In connection with its report the commission recommends a reduction in the speed of passenger trains, especially in the winter season, and announces that the New

York Central and Pennsylvania have practically consented to change the schedule of their eighteen-hour New York-Chicago trains to twenty hours during the winter.

In the Hyde Park accident the Twentieth Century Limited was derailed while running at high speed, and four cars went over a ten-foot embankment into the Hudson River, where they were stopped by heavy logs. Seventy-three passengers and employees were injured. The commission reported:

"The accident occurred at the end of one of the most severe winters known, when the frost was coming out of the ground. Having of the track had just occurred in many places, and at this point the leaving was probably especially uneven. The commission found it important to consider in connection with this accident is that of high speeds in the winter and early spring, when the tracks are subjected to the severest conditions.

Alternate freezing and thawing make uneven tracks, and the difficulty of inspection and repair is increased. Instead of the elastic roadbed of summer, the structure of the Northwest is here a brittle strain on the rails, an locomotive trucks and on car wheels and axles is augmented by the freezing impact.

"The record of accidents to fast trains during the last year raises the question whether the schedules are not too fast for safety. Whatever the factor of safety may be in summer, it must be materially reduced in winter.

Strike Is Called Off.
New York, July 29.—The Marine Firemen's Union met today and ordered 10,000 strikers back to work along the Atlantic coast. Telegrams were sent to the leading ports of the Atlantic coast, calling the strike off, because the other trades deserted the firemen in the effort to cause a general strike.

Ex-Senator Washburn Dead.
Minneapolis, Minn., July 29.—Former United States Senator William D. Washburn, for many years prominent in the political life of the nation, and one of the leaders in the unbuilding of the Northwest died here last night after a long illness. He was eighty-one years of age.

Auto Engine Damaged.

While on the way to a fire at Seventh and Preston Streets this morning, the automobile fire engine broke down at Tenth and Jackson, and it is thought to be seriously damaged. It was said that the extent of the damage would not be known until a full examination had been made, but it is serious, if impaired. Several small houses, occupied by colored people, were burned. Nobody was hurt in the engine accident.
